

NEW MODEL FARM AT CLARESHOLM

Citizens Viewing With Interest work on Government Farm.

Clareholm, July 4.—Clareholm has been watching with keen interest the progress of work in the agricultural demonstration farm adjacent to the townsite, and has been doing great activity for the last two weeks. Eight four-horse teams, a gasoline engine and a steam engine, have been employed in breaking operations. Two houses are being erected on a building site. All this work has been done under the supervision of C. S. Hotchkins, publicity commissioner of the province, who has been delegated by the minister of agriculture to the temporary management of the Clareholm farm. Mr. Hotchkins has been a farmer himself in the Clareholm district for a number of years and thoroughly understands the local agricultural conditions.

Two hundred and seventy-five acres of the half section which comprises the Claresholm farm had been broken by Saturday night. Most of it had also been packed and disced. The land obtained by the government for its farm is one of the best pieces of ground in the district. It is as level as a billiard table, entirely free from stones, and covered with rich loam. The plough used in the field have all gone to a good depth. A large part of breaking was done with a steam engine of 35 horse power, pulling 12 plows, each one of which goes to a depth of five inches.

To Sow Fall Wheat.
Most of the land broken will be

down to fall wheat this summer. The recent rains have provided abundant moisture for the rest of the season and the seed bed is in ideal condition. The rain came just at the right time and plenty of it, with the result that the spring crops of this district are in magnificent condition. Fall wheat is heading out finely. The crops promise to exceed those of any other year in the history of Claresholm.

Houses and Barn Built.

A barn 40x42 is now being completed, the roof having been put on last week. Two houses are now in course of construction which, when finished will compare favorably with the majority of residences in Clareholm. They will be two stories high with basement and foundations

concrete. The government's farm is practically an extension of the town being separated from it by a street only. Arrangements have been made to have the town water piped over to the farm and electric light will also be supplied from the Clarendon plant.

Two teams of horses owned by the government are now working on the farm and have attracted a great deal of attention. They are Clydesdales, four black bay mares, and make the finest teams in the district. They are the first of the horses to be purchased by the government for the Clarendon farm, and show careful selection.

PLANS STATE INSURANCE.

Italian Government's Object Is to Encourage Thrift.

Rome, July 4.—The bill providing for a state monopoly of life insurance came up in the chamber of deputies yesterday. Signor Mitti, the minister of agriculture, defended the bill, and replied to the arguments of its opponents. He explained that its object was to encourage thrift among the people and that the government would utilize the profits of the life insurance monopoly to pay old age pensions.

contended that the state was not bound to indemnify or compensate foreign companies doing business in Italy, and the monopoly will not violate any vested interests.

The speech was applauded by two thirds of the house. The debate was then closed and a vote will be taken.

contained that the state was not bound to indemnify or compensate foreign companies doing business in Italy, and the monopoly will not violate any vested interests.

The opponents of the bill threaten to resort to obstructive tactics.

NEWS OF STRATHCONA

NOTICE TO BULLETIN SUBSCRIBERS.

Mr. J. D. Hutton, of Hutton's Book Store, has been appointed agent in Strathcona for the Daily Bulletin. Any new subscriptions or complaints regarding delivery, etc., will be attended to by him.

STRATHCONA AND C. P. R. ARE AT WAR

Company Wantonly Turns Up the C. P. R. and the C. P. R. are at war. The C. P. R. is at war with the city of Strathcona and the city of Strathcona is at war with the C. P. R.

The alleged wrongs done by the C. P. R. of the rights of the city and the city of Strathcona in their operations between First Avenue North and the high level bridge around the right-of-way of the city of Strathcona last in their power to bring the railway to time even to the turning of an inch of a direct signal to the railway commission. The matter arose out of a question of the C. P. R. asking the council what was being done in regard to the crossing over the C. P. R. tracks at First Ave. North. In answer, Mayor Davies explained that the matter had passed to the hands of the council and had been referred to the solicitor to take up the heads of the railway. Ald. Calder did not consider this action was sufficient, but by the time the matter had been referred to the commission, the crossing would have been closed and protests would come too late. Ald. Vogel also took up the matter and the company degrading the station. Way the contractors were driving across the bridge and the city of Strathcona along that they had made the footpaths along the brow of the hill quite impassable for mud. The crossing on First Ave. was, Ald. Calder's speech, a source of complaint. Three weeks ago the railway had offered the city the right to open and maintain the crossing provided they bore the expense of grading and also any future responsibility in regard to protection. On top of this came the announcement that the railway intended to take a very liberal interpretation of the word "level" as it applied to the crossing and that at all points where streets intersected the grade of the railway, the former would have to continue the latter and that "level" as agreed upon between the city and the C. P. R. would be only a relative term. About this point in the discussion some one mentioned indignation and it looked for a moment as if it would be war to the knife, when Engineer McLean and one of the more practical aldermen pointed out that such action would not serve their purpose because a matter of engineering. It would be a physical impossibility to change the

grades between First Avenue north and the high level which were the maximum that the railway allowed themselves. He and Ald. flanking thought that it might be the wisest course to allow the railway to complete their grading work and afterwards enter an action for damages against them. The matter will be referred until the solicitor appears.

Beyond this disturbance the waters flowed almost without a ripple at last night's meeting. The accounts for the week, \$1,242.42, submitted by Secretary Cox, were passed without a murmur and the single communication was disposed of. This dealt with 27 cases of land opposite Laurier Park on the south side of the river, which A. C. Love offered to the city on behalf of E. T. Hurten, the owner, in Toronto. The price per acre, over \$250, was considered excessive and the offer will not be entertained.

Ald. Vogel, who is acting as superintendent of the power house until a new man is secured, asked that some one relieve him in his work on the hospital committee. Ald. Richardson was requested to undertake this duty.

Ald. Vogel also explained that the tardiness of the water supply was due to the entry of the river which was well below the mouth of the intake. The earth had been thus underlaid and kept falling into the well where the mouth of the intake was as to keep the water constantly disturbed. He hoped by repairing the pipe and drawing the supply direct from the river to remove the cause of the trouble.

The mayor reported that the contract between the city and the Massey Construction Co. had been duly executed and signed.

Mayor Davies read appointing Thomas Hardy and S. T. Waring as police constables.

Sidekicks for the east end came up in a question asked by Ald. Richardson, in which the contractor would be able to start on them in the vicinity of the Mill Creek bridge. He stated that he had received complaints from several residents. The engineer explained that the whole part of the city would have to take its place in the line unless the council saw fit to vary the order.

Fishermen were received for east from pipe and specials and for a few around some city property. The former were referred to the water and sewer committee and the latter to S. T. Waring at the rate of 4c per foot, the city supplying the material.

The council adjourned at 9:35 after one of the shortest sessions this year.

ENTERTAINMENTS

"WILLARD"

Possibly an attraction on the road has been advertised as much to the advantage of the Willard-Johnson Company which appears at popular prices at the Empire next week, beginning Monday night. In speaking of the above attraction the Free Press says: "Theatre-goers have, during the past week, been enjoying much fine theatrical in moving pictures and in the work of leading stars, but it is reserved for 'The Man of Mystery' now at the Willard, to win the blue prize. From countless people to-day we have heard 'I never saw the equal. Willard has them all beaten. He is the closest, but most baffling I have ever witnessed. He does tricks which it is even impossible, but he does them. Johnson's Travellers are wonderful; I will sing again tonight!'"

"THE EMPIRE"

That Canada loves Denman Thompson's celebrated play "The Old Homestead" as well as the United States is shown in an article which appeared in the Montreal Daily Star recently.

"The Old Homestead" with its true rural ring about it as if it had only come to light yesterday played a large audience last night. The home-ly beauty of the place was as much in evidence and appreciated as when it was first presented in this city many years ago. Among the features of the performance of the place were the selections rendered by the Old Homestead quartette which were repeatedly encored after singing part songs and medleys of trusty old songs and popular airs. The whole play of course, however around the kindly old farm parsonage of Joshua Whitcomb and Joshua last night in the hands of Mr. Wm. Lawrence was left to the care of ad. actor who portrayed the type to a splendid conclusion. His presentation is strictly natural and those which probably were in the author's mind when he planned this play around Joshua Whitcomb. He is hearty, tender, innocent and keen, while his appreciation of humor is a constant delight. His affecting scenes were apparently effective to just the proper shading. The Aunt Matilda of Mrs. Emma Chase is well played with the homely air of which was expected of her, while Mr. McKeaney was delightful as Beth, as was Mr. Lawrence as Prince. "The Old Homestead" opens here on Thursday night.

St. Thomas Old Church Band.

McDonald, said he had himself in his wind shed at Asiniboia this morning. It is thought that he was affected by him. He was the best known resident of the place and was tax collector for many years. Two sons live in Toronto.

TATF'S ANSWER TO HIS CRITICS

The Presidents Vigorous Replies to Arguments Against Reciprocity

Indianapolis, July 4.—President Taft put the finishing touch to the celebration in this city's "safe and sane" Fourth of July in a speech before the Canadian Club, which was held at the Canadian Club building tonight. The President made his answer to the arguments of other republicans that reciprocity as he has proposed it is not good for the United States, but for the benefit of the world.

He showed that reciprocity as presented to Congress by him differed, if at all, only slightly from reciprocity as presented by McKinley, and that the President said when analyzed would not be an argument for the admission of the Canadian wheat free of duty would lower the price of wheat in the United States, but for the benefit of the world.

The complaint that the farmers would be hurt by the agreement was answered by the President. He said that the farmers who are hurt by the agreement are not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement.

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

The President said, "It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement. It is not the farmers who are hurt by the agreement, but the farmers who are hurt by the agreement."

Double
Satisfaction.

Water Pan Is Correctly Placed In The Sunshine

Few people realize the importance
of the water-pan. Yet without the
moisture evaporated from the water
in the pan, the air passing through
the registers is harsh and
dry. It is hard on your lungs and
on your furnishings.

Now, the water-pan must be cor-
rectly placed to be of any real use. If it is placed
near the bottom of the furnace (see lower illustration)
the moisture has a long route (see arrow) to
travel before it reaches the pipes leading to the
radiators. It must pass alongside the fire-pot and
the terrific heat from these drives out
nearly every particle of moisture ascending from
the pan. Very little reaches the pipes or passes
through registers.

Now, notice the location of the Sunshine water-
pan. It is placed over the fuel door. This moisture
takes the short, direct route to the pipes leading to
the radiators. You can always have moisture-laden,
healthful air passing through your registers, pro-
vided you keep the Sunshine water-pan filled with
water.

If you value your health you'll have our local
dealer install the Sunshine, with a guarantee to heat
your house to your entire satisfaction.

BUILDING IN CANADA. SHOWS BIG INCREASE

Construction Figures for May Ed-
dence Remarkable Building De-
velopment Throughout Canada
Gain in Thirty-two Centuries
Totals 65 Per Cent.

If building returns for May can be
taken as an indication, activity in the
building line throughout the country
is certainly rampant. At no previous
time, considering the large list of
cities reported, have the gains been
greater in number, or the individual
increases of more striking magni-
tude. Comparative figures submitted to
"Construction," the building jour-
nal, published in Toronto, show an
average gain for thirty-two centres of
65 per cent, the permits totalling
\$1,147,000, as against \$1,114,000 in
the same period of last year. But
some decrease in all are noted, and
only five of these can really be con-
sidered as being on the reverse side.
Montreal, for instance, where the per-
mits amounted to \$1,703,120, the loss
was less than 1 per cent, while in the
case of Stratford, the comparative
loss represented as little as to indi-
cate practically nothing one way or
the other. Saskatoon, with a de-
crease of 12 per cent, suffered the
greatest loss from an investment
standpoint. Port William is next in
this respect with a decline of 52 per
cent. Ottawa, with a falling off of
17 per cent, is third, and Port Ar-
thur and Vancouver follow with de-
creases of 27 and 42 per cent, in order
named. Saskatoon, as it was, recat-
ed, a decrease of 14,000, while Ot-
tawa's amount was in excess of the
half million mark.

As for the total figures, investment, amount-
ing to \$1,515,312, shows a remarkable
degree of development, as does also
Toronto's total of \$2,649,750 and Van-
couver's amount of \$2,480,938. In

SASKATCHEWAN CROPS ARE GOOD

Telegraphic Bulletin Brings Good
News from All Parts of the Prov-
ince—Wheat Throughout Province
is Twenty Inches High.

Regina, July 4.—The fifth tele-
graphic bulletin issued by the Saskat-
chewan department of agriculture
states that the grain crop is in a very
healthy condition. Wheat throughout
the province is twenty inches high and
in some districts as high as thirty-
eight inches, the heavy land and summer
fallow it is tending to rankness.

Generally, there is not yet any seri-
ous overgrowth and it may become
evident in the present wet weather
conditions. In the Moose Jaw dis-
trict the straw blade promises to be
thick. Early sowing has already
helped to head out, and it is estimated
that the crop will be generally
headed out in a fortnight.

Fields of Marquis and Red Pile in
the western part of the province are fully
headed out. Cuts are coming along
well, and have reached an average
height of from 18 to 22 inches. There
is loss of moisture to carry the crop
through to harvest, but the grain is ac-
tually in the best condition. The cool,
cloudy and showery weather of last
week has made the growth rapid.

What is now required is warm sun-
shine. The first damage by hail re-
corded on the night of June 20th in
the southern part of the province is
in the neighborhood of Creelman,
where the hail was 1 1/2 inches in dia-
meter. Loss of grain is estimated at
the latter district the damage was
considerable percentage of the crop
being destroyed.

Fields of Marquis and Red Pile in
the western part of the province are fully
headed out. Cuts are coming along
well, and have reached an average
height of from 18 to 22 inches. There
is loss of moisture to carry the crop
through to harvest, but the grain is ac-
tually in the best condition. The cool,
cloudy and showery weather of last
week has made the growth rapid.

Premier Fisher's Sister Married.

London, July 4.—The romantic mar-
riage today of Miss Janet Fisher,
the daughter of the late Hon. Andrew
Fisher, premier of Australia, who has
been attending the imperial confer-
ence at the British foreign office and
consulate of the London office, at-
tracted a large crowd. Interests
spectators thronged the church and
to witness Premier Fisher gave away
his sister. The bridegroom was attend-
ed by picked good looking policeman
of the city force.

Editors from Ohio Coming.

Winnipeg, July 4.—Two hundred
editors from Ohio will be here July
10, passing through on a tour of
inspection. They will reach
Winnipeg on the return journey on
August 14. Practically every place of
importance in the three western pro-
vinces will be visited.

THE HEAVY RAINS

WESTGROVE

THE CREAM OF PARK THE WEST END

OBSERVE THE SITUATION:

Immediately West of Glenora, Just North Jasper Place, East of N. Jasper Place.

This is not a Sub-division so far out as to make it a doubtful speculation, but a district where
people are buying to build homes right now.

Consider These Advantages:—

It is close in with good surroundings. It is THE residen-
tial district, where everybody wants to live. It is
handy and accessible. Only a few minutes' walk from
the existing street car line and probably in a few
months you will be able to ride right to your own
door.

It is beautifully located, as smooth and level as a well-
kept lawn.

How much would you have made on your investment
had you purchased Groat Estate Lots a couple of
years ago?

How many times have you made the statement, "I wish
I had bought in the West End?"

You will be wishing the same about Westgrove if you
miss this opportunity.

Prices and Terms:

Prices Per Lot \$200 to \$400.
Terms—One-third cash, balance
six and twelve months.

Compare these prices with those of the
surrounding districts. You will find them
double and triple the figure.

Buy quickly. There are only 173 lots in
all, and they won't last long at these
prices.

Asthma

Dr. J. D. Kellogg's Asthma Remedy

Winning Free Press: Nowhere is not a familiar word to Canadians. For of them have ever seen it in print. Yet it is the name of a new remedy for the ill-effects of asthma, from Scotland, from which there were shipped last year—by us to the London Daily Mail—no less than one million copies of this remedy. The contest shows that by grain Mr. Frye means what one million men in the equivalent of five million million bunks. The figures are also incredible. This immense fund of what comes from men of grain in the regions in the Canadian. Around the world, the chief inland town of this district, has jumped in ten years from 12,000 to 75,000 population. It is like a new Canadian town in the western provinces, where Mr. Frye stands on the fact that the streets are immensely wide and steeped in blinding sunshine. Mr. Frye predicts a steady increase of wheat exports from this territory. Fully Canadian wheat is to meet ever-increasing competition in the markets of the world. Yet it is a fairly good way to throw away a market at our very door.

THE WRONG KIND OF CONSERVATION.
The opposition to reciprocity reflects the spirit of conservatism in the general meaning of the term. It is a movement not to conserve what is good and valuable, but to reject what it cannot be proved that it would be an additional good. It is a movement to conserve what is good and valuable, but to reject what it cannot be proved that it would be an additional good. It is a movement to conserve what is good and valuable, but to reject what it cannot be proved that it would be an additional good.

AMENDMENTS TO THE VETO BILL
Introduced in the House of Lords by Marquis of Lansdowne
London, July 4.—In the House of Lords today the Marquis of Lansdowne, leader of the opposition, introduced the official amendments to the veto bill. The amendments are for the exclusion from the operation of the bill of legislation relating to life insurance for a joint sitting in case of a disagreement between the two houses, and for a referendum in the country in other cases.

IMMIGRATION WAS BIGGEST IN CANADA'S HISTORY
Winning, July 4.—Flourish of the Immigration Bill for the fiscal year just completed reached a total of 311,084, or over one hundred thousand more than the immigration of the previous fiscal year. The total number of immigrants in 1910-11 was 287,678, when 262,419 immigrants reached Canada.
Of last year's aggregate 122,812 came from the United Kingdom, 55,212 being British. The Americans numbered 111,451, and Europeans 11,222. The practice of producing and exporting the bulk of immigrants has been a feature of the immigration since the time of the very first immigrants.
Indeed possibly the most significant feature of these arrivals is that the big wave to the Pacific provinces.

AD. WOLGAST WINS IN THE THIRTEENTH ROUND

Owen Moran, Sturdy British Lightweight, Who Hails from Birmingham, Goes Down Before Terrific Onslaught of Michigan Boy for Lightweight Champion of the World.

CONTEST TAKES PLACE IN OPEN AIR ARENA BEFORE ENORMOUS CROWD

Receipts Expected to Reach Between \$35,000 and \$40,000. Crowd Was Very Partizan, and Jeered and Hooted Moran When He Fought by His Opponent Even Wolgast's Second Attempt to Taunt the Briton.

Armed, San Francisco, July 4.—At 1:15 p.m., the prospective boxer-Ad. Wolgast, a Russian, who had been in such numbers that police aid was invoked to maintain order and alignment. The receipts will run between \$35,000 and \$40,000. The weather is partially cloudy, with a gentle rain breeze blowing direct from the arena.

Referee Jack Welch announced at ringside that he would overlook trivial faults in today's contest, but he is intent to incorporate on the part of the fighters, however, would incur prompt disqualification.

Referee Jack Welch announced at ringside that he would overlook trivial faults in today's contest, but he is intent to incorporate on the part of the fighters, however, would incur prompt disqualification.

Moran entered the ring at 2:45 p.m. Wolgast entered the ring thirty seconds later and a tremendous riot of approval. Moran was first introduced by Announcer Jordan as "the Briton's best." Wolgast was quickly presented to the crowd as "the light weight champion of the world."

Moran and Wolgast weighed in at 2:49 o'clock. Neither raised the beam, and their exact weight was not announced. At 2:50 o'clock there was a flurry of Moran money at the outside and some of the Wolgast backers were offering 2 to 1.

The ring was cleared at 2:55 p.m. and time was called at 2:56.

Round 1.—After shaking hands, they closed in slowly and almost immediately the crowd yelled for the referee to break them apart. Moran protested that Wolgast was hitting and the crowd yelled. Wolgast broke a clinch with two powerful lefts to the jaw, and they missed it each night.

Round 2.—They went to close quarters with Wolgast hooking his left viciously to the jaw. Then he

which the Briton replied: "He won't get me today," and then pointed vigorously to himself. When told the champion was intentionally "showing him," Moran said: "He's a shade."

Round 3.—They clinched with Wolgast, unexpecting to the face with right and left. Moran drove the champion with a short-arm right to the jaw. Wolgast swung slightly and Moran rained him twice more with right to the face.

Round 4.—A long elbow followed, almost breaking. Wolgast drove hard right to the face. They danced about the ring and Wolgast landed twice to the jaw with short arm punches. Wolgast seemed the aggressor as the bell ended in an even round.

Round 5.—The fighters slowed up a bit and then Moran shot a straight left to the face. They went to close range, Wolgast landing several rights over the fighters. They fought with a hot pace against the ropes, afterwards exchanging rights.

Round 6.—Wolgast landed a short-long-range right, both landing lefts to the face and both spinning about. Moran, breaking from a clinch, punched the champion's head with a right hook and the round ended about even with the men misting it at a fast clip.

Round 7.—Up to this stage Moran had apparently landed the cleaner punches, but seemed to be the weaker of the two. They went into a clinch and a heart-breaking right followed, Moran having much the better of the attack. Wolgast landed a short-long-range right, both landing lefts to the face and both spinning about.

Round 8.—Moran's supporters shouted at him to keep away the Englishman rushed in. Wolgast received his head with short-arm punches and gave the jaw for a volley of lefts by sending in right to his stomach. Moran fighting back, rained away. Wolgast scored the ring with a hard right to the jaw. Wolgast tied freely through the middle as Moran followed his advantage by clipping the champion several times with hard lefts and rights to the face and head. Moran's round was a success.

Round 9.—Wolgast covered up, crouching low, and missed a terrific left swing intended for the jaw. They fought it hard to the end, both scoring frequently. While in this position Wolgast almost choked his man with a left swing to the jaw and then closed in, landing out with left and right. Wolgast sent three lefts in succession to the body and received in return a stiff right to the jaw. The round was even.

Round 10.—Wolgast's right eye was badly discolored and Moran's mouth was bleeding as they took the mark. Wolgast sent a stiff left to the face and again they rounded it with their arms. Wolgast doing the greater execution. Moran drove a straight right to the jaw, and then clinched with the body. Wolgast hooked a left to the body and drove the Briton against the ropes. They were quickly back to the centre, fighting like tigers. Wolgast's second round Moran to

which the Briton replied: "He won't get me today," and then pointed vigorously to himself. When told the champion was intentionally "showing him," Moran said: "He's a shade."

Round 11.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 12.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 13.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 14.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 15.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 16.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 17.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 32.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 33.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 34.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

Round 35.—Moran slipped with his left to the jaw and they were in another clinching rally when the bell changed. It was Moran's round.

AROUND THE CITY

LOCAL

Mrs. J. C. Robertson, mother of Dr. Robertson, Nanaimo avenue, left last night for Chicago to visit old scene and old friends.

It was Dr. Robertson, who was lawyer for the plaintiff in the case of Permalov vs. Crang on C. P. Moran as stated in error yesterday.

A meeting of all the newspaper men taking part in the meeting to be held shortly will take place at half past two this afternoon in the Empire theatre.

Several enthusiastic Americans cheered things below the July last evening, demonstrating their patriotism for the fourth by sending off numerous fire crackers and enjoying themselves generally.

An evening contemporary stated yesterday that it was John Francis who was implicated in the burglary of the Johnston Walker Co. store.

John Francis is a well known carpenter and reputable citizen, employed with Phoebe & Hanson, and had nothing to do with the crime. The woman implicated is Harry Francis.

PERSONAL

W. H. Phillips and his cousin of Lethbridge, Ont., are visiting his sister Mrs. Walt.

Charles C. M. Nelson, 227 Clara street, will remain for the summer. On Thursday afternoon, July 6th, from his home in the city.

Miss Winnie Walt returned to her home in this city on Sunday afternoon, July 3rd, after a visit to the city.

GO TO CALGARY

Major Armstrong of Edmonton and Mayor Davies and his family, who were of strathcona, left last night for Calgary to visit their family.

Too Fast a Pace

against other brands is that set by smooth, even, fragrant

Black Cat

10 CIGARETTES 10c FOR No other Virginia cigarette in the world can even enter the same class with these little cylinders of smoke joy.

In our modern Canadian cigarette, the blending and cutting of the fine, sun-cured Virginia tobacco are done only by the most expert cigarette makers.

And the result is unalloyed cigarette delight for those who always seek the sign of the Black Cat.

At All Good Tobacconists

CARRERAS & MARCIANUS CIGARETTES, Limited, Montreal, Canada.

Stolen from Canadians. Non-Cons. of British Regulars. Sent to Prison for Robbing Canadian Officers.

London, July 4.—Lieut. Arthur and Lieut. Arthur, of the Canadian contingent attending the coronation, today pronounced two non-commissioned officers of the home regular detachment for stealing their jewelry, etc., during their absence on Coronation day. Several other officers were rebuked and the total value of property stolen is 100 pounds. The prisoners got two months each.

Good's Great Score. Saskatoon, Sask. July 4.—Charles W. Evans, 25, of Chicago, the Western men's golf champion, sent around the links in 74 in the third round of the golf championship today. His total score is 234.

Coronation Dead. Perth, Ont. July 4.—Mrs. Robert Hughes, 12-year-old child, died at her home in Inverness this morning at the age of 109 years after a short illness. Her son Robert Hughes was buried last Saturday from the same household at the age of 67. She had many grand children and great-grandchildren, some in Saskatchewan and Alberta.

PONOKA DEFEATS FAST ALIX NINE

The Winners Managed to Pull out a Win in the Ninth Inning—Game Continued—Score—Ponoka 7, Alix 5.

Ponoka, July 4.—The Ponoka nine took the field today for the first time in a fast baseball game this morning. The game was played in the afternoon at the Ponoka grounds.

BIG HOUSE FOR MENTAL

Over eight hundred people did all the while, and crowded the benches to witness what was undoubtedly the best demonstration of psychic phenomena ever seen in Edmonton, presented by Prof. Mental and his clever company last night.

As a magician, Prof. Mental demonstrated his mastery of this difficult art with a series of clever illusions of cards, balls and handkerchiefs.

Prof. Mental held his audience in the palm of his hand, and the best of the best in the business were in the hall.

Prof. Mental held his audience in the palm of his hand, and the best of the best in the business were in the hall.

Twelve Bladed Pocket Outfit \$2.50

By English But That's a "Jolly Good" Razor

—LOVE IT, YOU KNOW and if you know English culture—you know that it's the world's finest.

If we can just get you to try—it'll buy. The YANKEE ought to be \$5.00. We ask \$2.50 for the outfit to make you want it.

It's the best-made razor and the best-made razor after ever touched a willing or fainly beard.
